Re: 6058-60 30th St

Dear Mr. Smith,

Please find this correspondence as a follow-up to the communication you provided on April 16, 2025, to the Detroit Water and Sewerage Department (DWSD) and the Board of Water Commissioners (BOWC) regarding the high balance on the account.

DWSD's Interval Consumption Report (attached), which outlines hourly water usage at the referenced account, indicates a pattern of elevated consumption between January 25, 2025, and February 3, 2025. This excessive usage may have been caused by a running toilet, open faucet or spigot, or another internal plumbing issue. Regardless of the cause, the consumption was recorded as actual (not estimated) and is therefore considered valid.

On February 25, 2025, a representative from DWSD Meter Operations visited the property. During this visit, Meter Serial Number 81670329 was removed and replaced with Meter Serial Number 230392869. The removed meter was tested and found to be 99.53% accurate (test results attached).

The account was billed for the elevated usage during the billing periods of January 1-February 2, 2025, and February 3-February 25, 2025, when the meter was removed. During the site visit, the Field Service Technician (FST) did not identify any active leaks, indicating that the private plumbing issue had been resolved before our inspection.

On April 17, 2025, you were contacted and informed of the results of our investigation. At that time, we confirmed that the account was billed accurately, and no adjustment is warranted. Given the high balance, you were offered the option to enroll in our EasyPay installment plan to prevent any interruption to your water service. With your consent, the account has since been successfully enrolled in the installment arrangement.

If you have any questions or need further assistance, please do not hesitate to contact us.

Thank you for being a valued DWSD customer.

Respectfully,

Kimberly Crowell
