Regarding: Account Number: 560-2414.300  
Service Address: 6415 Woodmont  
Parcel ID Number: 22063138-9

Dear Mr. Harkuscha:

The Detroit Water and Sewerage Department (DWSD) acknowledges that we have received an inquiry concerning your stormwater drainage charges. Our review has considered all relevant information, including the most recent satellite images and information shared by you during the site visit by DWSD staff on October 8, 2018. The details of our review are provided below.

The impervious area (acres) associated with the parcel and account number identified in this letter, to which the drainage charge is applied, is correct.

The water-wise landscaping practices employed at your property are appreciated, and the potential for green credit was analyzed. The green credit calculated for your parcel does not exceed the 25% credit that is automatically applied to all residential customers. Customers receive the automatic residential credit or the calculated green credit, whichever is higher. Therefore, you will continue to receive the 25% automatic residential credit.

Therefore, no changes will be made as a result of your request.

In regards to concerns of flooding in the area, we have referred the issue to the DWSD maintenance team to investigate the matter.

We appreciate your cooperation, as well as the opportunity to continue to provide high-quality service in the future. If you have any questions, please contact the Drainage and Green Credit Program Office at (313)-267-8000 (option 6).

For the most up to date information regarding DWSD's Drainage program, please visit our website at [www.detroitmi.gov/drainage](http://www.detroitmi.gov/drainage).

Respectfully,  
*The Drainage and Green Credit Program Team*
