Re: Public Comment – Response to Drainage Concerns

Please accept this letter as a follow-up to your concern addressed to the City of Detroit Water and Sewerage Department (DWSD) at a previous community outreach meeting.

Per our letter sent to your residence on August 6th 2018, the drainage team met with you on February 22, 2018 at 11:00am for a predetermination meeting to discuss your questions/concerns about the 100 year storm methodology that DWSD has adopted concerning drainage. After meeting with you, DWSD advised you to submit the Drainage Adjustment Application along with supporting documents and colored photos. To date, we have not received these materials in order to proceed with your project. We have attempted to reach you on multiple occasions and have been unsuccessfully in communicating with you in order for DWSD to continue with your project. Due to the lack of communication and incomplete information, DWSD has sent a letter on March 5, 2018 advising of the closure of your project.

In addition a link of the 100 year rainfall data and the drainage program guide were sent to you via email on September 19th 2018.

If you would like to continue with your DWSD project, please submit the requested documentation along with your colored photos and contact our Customer Care Center at 313-267-8000 (option 6). A drainage customer care representative can reopen your project and continue the process of resolving your concern.

If you have any other questions, please call our Customer Care Center at 313-267-8000 option 6.

Respectfully,

Lisa Wallick

Lisa Wallick, P.E.
Stormwater Management Group Program Manager
