

CAPITAL IMPROVEMENT PLAN

PRELIMINARY DRAFT 2019-2023 CIP REPORT

February 7, 2018

Capital Improvement Plan

- This CIP should be considered a planning document – the CIP is an evolving plan that requires continual review and modification during the course of each year. The estimates indicated in the early years of the report are likely more precise than those in the later years.
- The following table details the planned expenditures for the Fiscal Years 2019-2023 CIP. Expenditures are focused on replacement, installation and/or abandonment of existing water mains, replacement of inoperable fire hydrants, rehabilitation of sewer systems, management of storm water with green infrastructure, upgrades to information technology systems, replacing aging equipment and vehicles, as well as rehabilitation of facilities that support the operation of the utility.

Summary of CIP Financial Plan

The FY 2019 – FY 2023 capital improvement plan provides for \$259 million of water system improvements and \$199 million of sewer system improvements over the five year planning cycle.
