

Detroit Water and Sewerage Department

TITLE: INTERNAL AUDIT MANAGER

CLASS CODE:

SUMMARY:

The Internal Audit Manager reports functionally to the Board of Water Commissioners and administratively (i.e., day to day operations) to the Chief Financial Officer. The Internal Audit Manager oversees the internal audit function and internal audit personnel.

The Internal Audit Manager is responsible for internal audit and review of all functions performed throughout the Detroit Water and Sewerage Department (DWSD), as determined by the annual risk assessment and internal audit planning process as well as ad hoc requests. The Internal Audit Manager regularly evaluates departments/divisions of the agency to determine if they are in compliance with applicable Federal and state laws, City Ordinances, uniform rules, regulations, guidelines, policies, precedents, business law, corporation finance, and economics related to the area of work.

ESSENTIAL JOB FUNCTIONS:

The Internal Audit Manager is responsible for developing and implementing a risk-based internal audit plan, assisting management and the Board of Water Commissioners in complying with applicable internal control policies and regulations, and working with management to bring cost effective and efficient leading practices. The Internal Audit Manager has the authority to perform audit and consulting activities, has access to necessary data when requested, and may obtain assistance of DWSD personnel as needed. Duties may include the following:

- Conduct the annual risk assessment and develop the annual internal audit plan for approval by the Board.
- Manage all audit activities, including those approved through the internal audit planning process as well as those requested by members of the Board and/or Executive Management
- Develop audit procedures for each approved internal audit activity
- Review accounting, financial, control, operating, and other records and data to determine level of compliance with established policies, procedures, laws, regulations, and guidelines relevant to a specific activity
- Inspect account books and accounting systems for efficiency, effectiveness, and use of accepted accounting procedures to record transactions
- Collect and analyze data to detect deficient controls, duplicated effort, extravagance, fraud, or non-compliance with laws, regulations, and management policies
- Conduct interviews and process walk throughs to understand existing policies, practices, and workflows
- Examine and evaluate financial and information systems, recommending controls to ensure system reliability and data integrity
- Prepare audit report containing analysis, conclusions reached, proposed/recommended actions, and responses from management
- Recommend corrective actions such as modifying management systems, financial and accounting systems, workflow, lines of authority, and other corrective actions
- Perform special projects and other duties as assigned

Detroit Water and Sewerage Department

TITLE: INTERNAL AUDIT MANAGER

CLASS CODE:
