**RE: Proposed encumbrances against CoD Contract Nos. 6002411 and 6002415
For the purchase of fuel for DWSD from Corrigan Oil and Ace Petroleum**

MOTION

The Board of Water Commissioners for the City of Detroit, Water and Sewerage Department authorizes the Director to approve **DWSD's portion of the City of Detroit's contracts with Corrigan Oil Co. No II and Ace Petroleum Inc for the as-needed purchase of unleaded and diesel fuel for a total amount not-to-exceed \$4,889,000 over a term of 5 years**, and also authorizes the Director to take such other action as may be necessary to accomplish the intent of this vote.

BACKGROUND & JUSTIFICATION

DWSD utilizes the City-wide contract managed by the City of Detroit (CoD) for the purchase of diesel and unleaded fuel. The current contract has been in place for eight (8) years at a cost of \$104,925,110 of which DWSD was also included.

CoD recently issued a competitive solicitation for a new contract that also included DWSD's fuel requirements within the scope of the solicitation. The new contracts are a total of \$85,000,000. DWSD has an approximate 5% share of this total volume and so, benefits from the volume pricing obtained by CoD to fuel DWSD vehicles and equipment used to carry out tasks in its daily operations.

Based on historical information, the anticipated annual usage of fuel used by DWSD is:

- 324,898 gallons per year
 - Unleaded: total 107,459 gallons per year (~ 6% of overall contract)
 - West Yard location: 16,820 gallons
 - Central Services Facility: 90,639 gallons
 - Diesel: total 217,439 gallons per year (~ 5% of overall contract)
 - West Yard location: 28,190 gallons
 - Central Services Facility: 189,249 gallons

PROCUREMENT METHOD

The City of Detroit (CoD) advertised a Request for Proposals (RFP) #19LC2881 on BidSync for a period of 20 calendar days, which was viewed by 37 vendors.

Three proposals were received:

Proposer	Equalizations Applied
Ace Petroleum (Detroit, MI)	DBB
Corrigan Oil (Detroit, MI)	DBB & D-HB
Waterfront Petroleum (Detroit, MI)	DBB, D-HB, D-RB, D-SB

The proposal evaluators included stakeholders from major City of Detroit entities including GSD, DDOT, and DWSD. After a series of presentations from the vendors and internal team evaluations, it was determined that the best course of action for the City of Detroit is to split up the award equitably amongst all three respondents and to assign each of the three contracts to deliver to specific locations. DWSD was assigned the contracts with Corrigan Oil and Ace Petroleum.

Negotiations were performed by the City of Detroit's Office of Central Purchasing with all three vendors and rates have been set, over the five year term, to:

\$0.0903 per gallon over the OPIS rate of the day for diesel

\$0.0747 per gallon over the OPIS rate of the day for unleaded petroleum

Therefore, DWSD is requesting BOWC approval to utilize the City of Detroit contracts with Corrigan Oil and Ace Petroleum for the as-needed purchase of fuel.
